

6020 Low Profile Load Cell

Tensile Load Cell

- Range 2 to 50te
- Stainless steel construction.
- Rugged and easily employed
- Sealed to IP68

Description

The 6020 low profile load cell has full environmental protection and is built for rugged applications. The load cell is constructed from high strength stainless steel. A complete range covers the load capacities from 2 to 50 tonne. Each load cell can be fitted with loading button or other loading attachments. The cell is built to the highest commercial standards that include temperature compensation over a wide temperature range.
